BIOGRAPHY

Thomas Vaquié (France)

Born in Toulouse, France in 1982. Lives and works in Brussels.

Musician and composer Thomas Vaquié dedicates most of his time composing music and sound design for moving image, in particular for cinema and documentary.

Since 2007 he has specialised in music experimentation for audiovisual work with the Antivj visual label, creating site-specific pieces for places such as France's Centre Pompidou Metz designed by Shigeru Ban, the Old Port of Montreal's metallic conveyor tower, in Songdo (South Korea's futurist city project), Oaxaca's ethnobotanical gardens or Hala Stulecia, Poland's 70m diameter concrete dome.

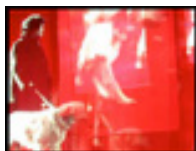

Thomas also creates very modern compositions for immersive audiovisual installations, (3Destruct, Onion Skin, Light Sculptures, Cityscape 2095). With a strong sense of composition and narrative (he has co-directed certain projects with Antivj visual directors), sound designer skills and a capacity to project an image sonically, Thomas produces striking, emotional and physical pieces, consistently trying to extend visual experiences into physical ones.
